COUNT I

INFRINGEMENT OF U.S. PATENT NO. 6,349,135

9. Plaintiff is the owner by assignment of United States Patent No. 6,349,135 ("the '135 Patent") entitled "Method And System For A Wireless Digital Message Service"—including all rights to recover for past and future acts of infringement. The '135 Patent issued on Feb. 19, 2002. A true and correct copy of the '135 Patent is attached as Exhibit A.

10. Upon information and belief, Spot has been and now is directly or through intermediaries is making, made, having made, installing, installed, using, used, importing, imported, providing, provided, supplying, supplied, distributing, distributed, selling, sold, offering and/or offered for sale products, services and/or systems (the “infringing systems”) that infringe or, when used by their intended users in the manner intended by Spot, infringe(d) one or more claims of the ‘135 Patent in the State of Texas, in this judicial district, and elsewhere in the United States. Without limiting or waiving Plaintiff’s right to later amend or supplement its Complaint, Spot’s infringing systems include, but are not limited to, the Spot Global Phone and the Spot Connect. Use of these infringing products and the services they provide in their intended manner, and as they are designed and/or programmed to operate – specifically with respect to providing a satellite-connected device the ability to receive text messages – appear to infringe one or more claims of the ‘135 Patent. Furthermore, Spot appears to act as sole the service provider to users of these infringing systems – resulting in use of the infringing systems by end-users under the influence and control of Spot. Spot thus directly and indirectly infringes, jointly infringes, contributes to and/or induces infringement of one or more claims of the ‘135 Patent. Defendant Spot is thus liable for infringement of the ‘135 Patent pursuant to 35 U.S.C. § 271(a), (b) & (c).

11. Upon information and belief, Spot is a subsidiary, division or operational subordinate of Global. Global is therefore jointly and severably liable for Spot’s infringement as described in paragraph 10, above.

12. Upon information and belief, Global has been and now is directly or through intermediaries is making, made, having made, installing, installed, using, used, importing, imported, providing, provided, supplying, supplied, distributing, distributed, selling, sold, offering and/or offered for sale products, services and/or systems (the “infringing systems”) that infringe or, when used by their intended users in the manner intended by Global, infringe(d) one or more claims of the ‘135 Patent in the State of Texas, in this judicial district, and elsewhere in the United States. Without limiting or waiving Plaintiff’s right to later amend or supplement its Complaint, Global’s infringing systems include, but are not limited to: Global’s Sat-Fi products; and Global’s GSP Satellite Phones and Data Modems. Use of these infringing products and the services they provide in their intended manner, and as they are designed and/or programmed to operate – specifically with respect to providing a satellite-connected device the ability to receive

text messages – appear to infringe one or more claims of the ‘135 Patent. Furthermore, Global appears to act as sole the service provider to users of the infringing systems – resulting in use of the infringing systems by end-users under the influence and control of Global. Global thus directly and indirectly infringes, jointly infringes, contributes to and/or induces infringement of one or more claims of the ‘135 Patent. Defendant Global is thus liable for infringement of the ‘135 Patent pursuant to 35 U.S.C. § 271(a), (b) & (c).

PRAYER FOR RELIEF

WHEREFORE, Plaintiff respectfully requests that this Court enter:

1. A judgment in favor of Plaintiff that Defendants have infringed, directly, jointly, and/or indirectly, by way of inducing and/or contributing to the infringement of, the ‘135 Patent;
2. A permanent injunction enjoining Defendants and their officers, directors, agents, servants, affiliates, employees, divisions, branches, subsidiaries, parents, and all others acting in active concert therewith from infringement, inducing the infringement of, or contributing to the infringement of the ‘135 Patent;
3. A judgment and order requiring Defendants to pay Plaintiff its damages, costs, expenses, and prejudgment and post-judgment interest for Defendants’ infringement of the ‘135 Patent as provided under 35 U.S.C. § 284;
4. An award to Plaintiff for enhanced damages resulting from the knowing and deliberate nature of Defendants’ prohibited conduct with notice made at least as early as the service date of this Complaint, as provided under 35 U.S.C. § 284;
5. A judgment and order finding that this is an exceptional case within the meaning of 35 U.S.C. § 285 and awarding to Plaintiff its reasonable attorneys’ fees; and
6. Any and all other relief to which Plaintiff may show itself to be entitled.
